

The Literacy Department here at Newman Catholic School are pleased to have purchased IDL Cloud to help our students improve their spelling and reading.

It is available for all students who wish to improve their literacy skills. Each student must commit to complete a minimum of two 30 minute sessions per week. This can be done at break-times, lunch, after school or at home.

A large percentage of students are already working on this programme in school.

If you would like your child's username and password please contact Miss Duncanson in the Literacy Department on:

claireduncanson@newman.cumbria.sch.uk
